

A guide to prices for self-paying patients 2010

Thread vein Treatments

Initial assessment only (no injections) £100
(Very occasionally before a decision on treatment can be made an additional ultrasound scan will be required. This can cost up to £400)

Thread vein injections per 30-minute treatment session £180
(In addition to this charge, there is a charge for the support stockings supplied at the initial treatment visit. The price depends on the type of stocking selected, and varies from about £25 to £60. Further information about stocking prices can be obtained from the Duchy Hospital directly.)

Foam Sclerotherapy for minor varicose veins

Initial consultation and ultrasound assessment of veins	1 leg	£180
	2 legs	£210

First course of injections	1 leg	£225
	2 Legs	£270

Additional injections per visit		£150
---------------------------------	--	------

Foam Sclerotherapy for truncal varicose veins

Initial consultation and ultrasound assessment of veins	1 leg	£180
	2 legs	£210

Foam sclerotherapy long or short saphenous veins (may need more than 1 visit, costs cover all treatment)	1 leg	£875
	2 Legs	£1520

Endovenous laser therapy (EVLT)

Initial consultation and ultrasound assessment of veins	1 leg	£180
	2 legs	£210

EVLT treatment long or short saphenous veins	1 leg	£1420
	2 legs	£2100

(Cornwall Vein Clinic undertakes these procedures on a private basis at St Michaels Hospital Hayle. The costs quoted represent the total of all invoiced costs from CVC and the RCHT, and includes the cost of any adjunctive therapy undertaken at time of EVLT.)

One post-treatment follow up visit		FREE
------------------------------------	--	------

VNUS ClosureFAST treatment

Initial consultation and ultrasound assessment of veins	1 leg	£180
	2 legs	£210
VNUS ClosureFAST long or short saphenous veins	1 leg	£1500
	2 Legs	£1900
(Includes cost of any adjunctive sclerotherapy undertaken at the time of VNUS, but not the costs of any sclerotherapy or other treatments undertaken at a later date.)		
One post-treatment follow up visit		FREE

For all the above treatments, charges are the same regardless of whether or not the veins are recurrent (have come back after a previous treatment).

Surgical treatment

Initial consultation and ultrasound assessment of veins	1 leg	£180
	2 legs	£210
Surgical treatment varicose veins, long or short saphenous	1 leg	£1730
	2 legs	£2520
Surgical treatment recurrent varicose veins	1 leg	£2420
	2 legs	£3530
One post-treatment follow up visit		FREE

These prices are intended as a rough guide for patients who are funding their own treatment; costs can vary considerably depending on your individual diagnosis. The exact costs of your treatment will always be discussed with you at your initial consultation.
